

WHERE DOES IT GO?

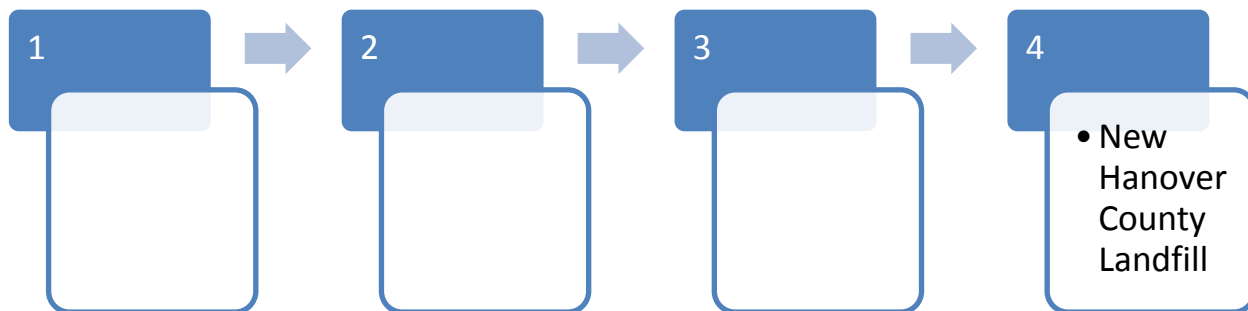

Let's find out what happens to your **trash** and **recycling** from home.

Let's track your trash as it flows in a line.

Your Turn: Answer 1-4. Fill in the chart below.

1. Pick an item you throw away in the trash can. _____.
2. What happens when your trash can is full?
 - a. I take it to the curb.
 - b. I put it in a dumpster.
3. What company or city is on your trash cart or dumpster? Hint: Look here
4. Trash goes to the landfill.

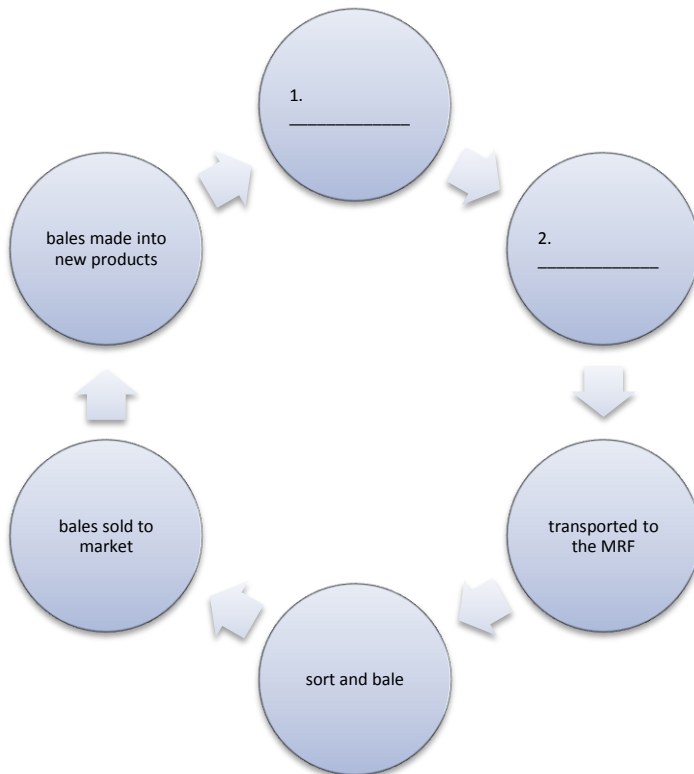

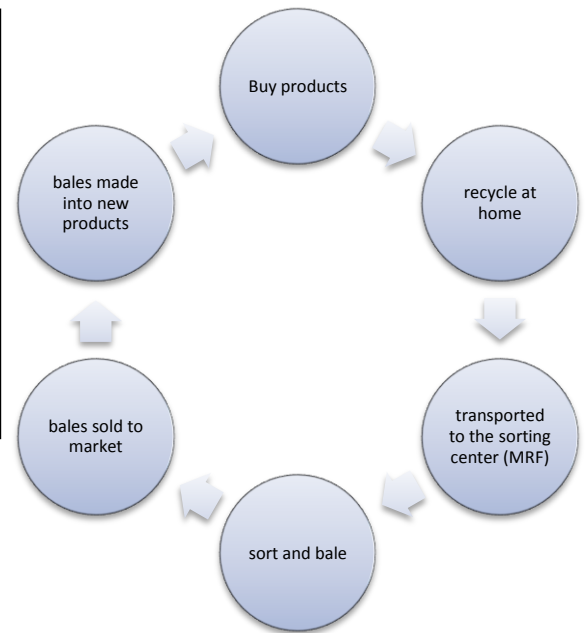

WHERE DOES IT GO?

Let's track your recycling as it flows in a cycle.

Your Turn: Answer 1-2. Then fill in the chart below.

1. Pick something you recycle at home or school.
_____.
2. How do you recycle it?
 - a. Cart – what City or Company?
_____.
 - b. Drop off center in the County.
 - c. A recycling dumpster – what Company?
_____.

Great job!

When we recycle, we use our resources over and over again, which saves energy, and reduces pollution.

Now that you know where your recycling goes, follow these links and see what your recycling can become.
